**SAFETY TIPS ON CYCLONE PREPAREDNESS**

(For Cyclone, Heavy Rain, Water Logging, Flash Flood etc.)

1. Listen to radio or TV weather reports for warning and advice and be alert.
2. Identify safe shelters in your area. These should be cyclone resistant and also find the closest safe and route to reach them.
3. If your family members would be staying at a place other than your home, they should know the safe routes to nearest shelter/visuised buildings.
4. Keep your emergency kit and basic food supply, medicines, torch and batteries etc. ready.
5. Doors, windows, roof and walls should be strengthened before the cyclone season starts.
6. If your area is flood prone, consider suitable flood resistant building materials.
7. Do not let children and pregnant women remain alone at home.
8. Park/ment clothes/objects outside the house at a higher platform so they can be shifted safely.
9. Do not use electrical appliances, which are in flood water.
10. Do not go into water of unknown depth and current.
11. Do not allow children to play in, or near flood water.
12. Do not venture into the sea if so advised. Stay indoors under the strongest part of the house if not removed by the cyclonic shelter.
13. Remain indoors until informed that weather has improved.
14. In case of further information that it is safe, evacuate, wait and do not go back to your house.
15. Do not go out till officially advised.
16. Be careful of snakes, as snake bite are common during floods.
