**DrDO, IAF jointly flight test indigenously developed Long-Range Bomb successfully**

This will prove to be a force multiplier for Indian Armed Forces: Defence Minister

New Delhi, Oct. 29

Defence Research and Development Organisation (DRDO) and Indian Air Force (IAF) team on Friday jointly flight tested an indigenously developed Long-Range Bomb under a multi-national flight test platform. The Long-Range Bomb was released from KforthC-130J aircraft, guided to a land-based target by a range of sensors with accuracy within specified limits. All the major events of the objectives were monitored successfully. The flight of the bomb and the target point was monitored by a number of range sensors including Electro Optical Tracking System, Telemetry and radar deployed by the Integrated Test Range, Chandipur in Odisha. The Long-Range Bomb has been designed and developed by DRDO’s laboratory located at Hyderabad in coordination with other laboratories.

Chairman DRDO, Shri Rajeshwar Singh has congratulated DRDO, IAF and the teams who were involved in this mission with a successful flight trial and stated that this will prove to be a force multiplier for the Indian Armed Forces.

PBMC facilitates women SHGs by promoting & marketing their products for enhanced livelihood.

Under DAY-NULM scheme of Ministry of Rural Development & Panchayati Raj, the City Livelihood Centre (CLC) of PBMC facilitates women SHGs formed by it in promoting and marketing their products for enhanced livelihood. This Diwali season, in order to promote the concept of self-reliance and marketing support to SHGs, the Centre has prepared homemade snack items such as ‘Mumkheek’ and ‘Mithakhari’ at PBMC. The Centre has also given some awareness to the SHGs on procedures and Do’s & Don’ts of Adoption. The same also emphasized on the process of surrendering children which can be restored through adoption.
