PM chairs 7th meeting of National Board for Wildlife

Stresses on usage of remote sensing & geospatial mapping and AI & Machine Learning to combat issues like forest fires and human-animal conflicts

New Delhi, Mar. 3 (PIB)

Prime Minister, Shri Narendra Modi visited Gir National Park in Gujarat earlier today, where he chaired the 7th meeting of the National Board for Wildlife. The National Board for Wildlife reviewed various initiatives undertaken by the Government in wildlife conservation, highlighting achievements in the creation of new protected areas and species-specific flagship programs such as Project Tiger, Project Elephant, Project Snow Leopard, among others. The Board also discussed conservation efforts for dolphins and Asiatic lions, and the establishment of the International Big Cats Alliance.

During the meeting, Prime Minister released the report of the first-ever

riverine dolphin estimation conducted in the country, which estimated a total of 6,327 dolphins. This pioneering effort involved surveying 28 rivers across eight States, with 3150 mandays dedicated to covering over 8,500 kilometers. Uttar Pradesh recorded the highest numbers, followed by Bihar, West Bengal, and Assam. Prime Minister emphasised the importance of awareness on dolphin conservation and involvement of local population and villagers in the areas. He also advised organising exposure visits of school children in dolphin habitat areas. Prime Minister also laid the foundation stone of the National Referral Centre for Wildlife at Junagadh, which will function as the hub for coordination and governance of various aspects related to wildlife health and disease management. Population estimation of Asiatic Lions is carried out once every five years.

The last such exercise was carried out in 2020. Prime Minister announced the initiation of the 16th cycle of lion estimation to be conducted in 2025. Considering that the Asiatic Lions have now made Barda Wildlife Sanctuary their home through natural dispersal, Prime Minister announced that lion conservation in Barda will be supported through prey augmentation and other habitat improvement efforts. Underscoring the importance of eco-tourism as a means for development and conservation of wildlife habitats, he emphasised that there should be ease of travelling and connectivity for wildlife tourism.

For effective management of human-wildlife conflict, Prime Minister made an announcement for
